

B&B Bulletin

March 2011

Rogue Valley Door House Job Pricing

Rogue Valley Door announces lower pricing on house job quantities of 15 or more doors. Previous to this announcement orders for less than five of a size and kind had a less-than-quantity (LSQ) surcharge built in to your pricing regardless of the total number of doors ordered. Effective immediately all orders for 15 or more RV doors for a single project will have the LSQ WAIVED! This is a savings of 25% for Fir and Pine doors and 15% for all hardwood doors.

Veneer Edging now with Hot-Melt Adhesive

All of our veneer edging, 13/16" x 8', 13/16"x250' and 2"x25', will ship with a hot melt adhesive applied. Our catalog currently indicates that the 250' rolls do not have adhesive. Please make this change on page 18 Section 11G.

StairTrends Correction

B5500 is 2-3/4" wide not 2-5/8" as listed in our catalog

White River Mouldings

iPad, iPhone & iPod touch

FREE Volume V catalogs for the iPad, iPhone & iPod touch.

Volume V is available now for download via the iTunes App Store. The catalogs provide interactive page flipping where pages follow your fingers and a 10x zoom feature to view the intricate details of White River products.

Also included is a unique sharing feature that allows you to share our catalogs with your colleagues just like you would in the real world! You will have access to bookmarks, a contents page, and a great search tool, which allows you to search the entire catalog for that perfect product(s) for your next remodeling or new construction project. A must have if you own an iPad or iPhone!

HBG Column News!

Price Increase

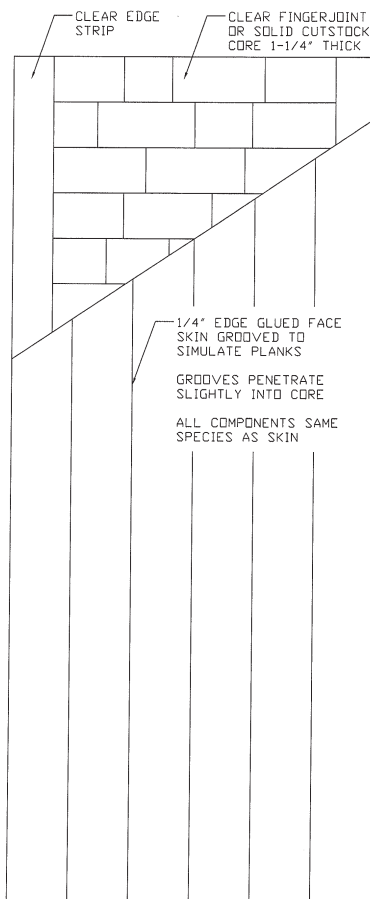

HBG has announced that all product prices will increase by 5.6% effective April 1st. This price will initially effect drop ship pricing and special quotes. Out of warehouse pricing will not change until B&B introduces a new 2011 discount sheet.

Parallel Dimensions

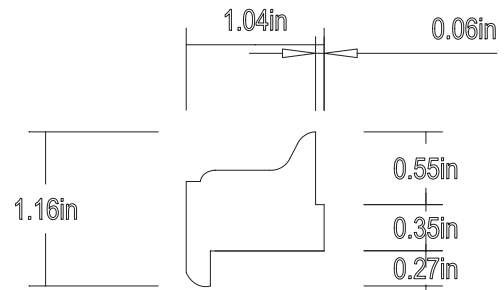

HBG has re-measured their Permacast round column molds and updated the parallel dimensions for each column. [Parallel dimension is the distance from the bottom of the column shaft that does not taper]. The B&B catalog's dimensions on page 4 may not be correct. Call for current specifications.

Plank Door Construction

We have had a number of inquiries on how the RV series plank door is constructed. The diagram to the left is a typical plank door. Please note that these doors do not have the standard manufacturer warranty.

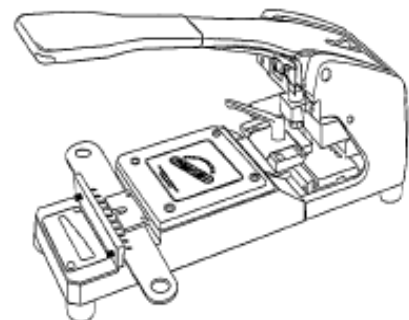

Door Light Kits

We stock a large variety of sizes of wood door Light Kits. The door kits are stock in Beech (mill option Alder) with Oak, Maple and other woods available upon request. We inventory most of our light kits glazed 1/8" tempered, glazed Insul tempered and open for 1/4" glass. We have recently changed one of our stock sizes and are in the process of changing the profile of the light insert. The new profile is shown above (1-3/4" thick cross-section featured). The 24x64 kit will be discontinued and a **22 x 64** kit will be **stock**. Pricing for the 22" wide will be the same as the 24" wide. Please note this change on page 14 Section 4A.

Schlage Key Punch Promotion

Schlage has reinstated their key punch promotion through March 25th. The SecureKey keying system transition has been well received. Many customers who thought that they would have no need for a key punch or a keying machine have found that having one will greatly increase their customer service and efficiency. The key punch is available for a net cost of \$625.00 until March 26th.
