Architectural Series

The Architectural Collection is comprised of the building industry's best performing, most picturesque shutters combined with advanced engineering and uncompromising attention to detail.

The Architectural Collection includes Raised Panel, Louvered Colonial, Combination and Bahama shutter styles. They use marine-grade fiberglass stiles and louvers, proprietary composite wood panels and structural-grade PVC rails. Their advanced construction leaves the maintenance needs of wood behind, while creating shutters with authentic and solid

aesthetics, dramatic sophistication and undeniable appeal. The quality of the Architectural Collection is backed by a limited lifetime structural and finish warranty.

These shutters are sized to your exact specifications and hand-sanded for optimum, smooth beauty. Available in more than 40 colors, they also custom color-match these shutters with a 100% guarantee.

Classic Series

Atlantic's Classic Collection Shutters are available in the popular Raised Panel, Faux Louver and Board and Batten designs. Each shutter style is available in 40 brilliant colors. Classic Collection shutters can be installed as either operable or fixed shutters and offer a number of options for personalized touches.

The Classic Collection's innovative construction delivers maintenance-free beauty. Each shutter is hand-assembled and individually built in their facility, then hand-sanded to ensure a smooth finish. For strength and structural integrity, they're exclusively crafted with their proprietary composite wood, composed of 90% wood, phenolic resins, zinc borate and other ingredients, making them moisture, rot and termite resistant. No pre-fabricated, stamped, molded or vacuum-formed materials are used.

An exclusive four-part finishing process ensures the color you select holds its richness. Their proprietary oven-curing treatment delivers extreme durability, permanently bonding your color selection to the shutter. They can also match any color with a 100% color-match guarantee.

Classic Collection shutters offer a 10-year structural-component warranty against cracking, splitting or rotting. A 10-year factory paint-finish warranty is provided against peeling or flaking.

Pro Series

Atlantic's new ProSeries are available in the Raised & Flat Panel, Faux Louver and Board and Batten designs. The ProSeries Collection's are hand-assembled from exterior grade composite wood components that will not rot, bend, crack or split. These shutters are factory primed only. Corners and joints are true and square with tongue and groove construction. Each shutter is machine sanded and finished with a single coat of marine grade primer. Shutters need only be scuffed with

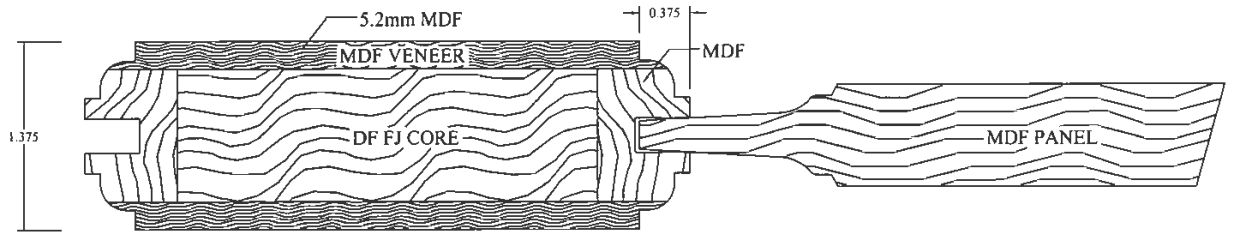

fine 600 grit sandpaper prior to receiving the finish paint coat. Widths are available from 12" to 24" in half-inch increments, heights from 30" to 96" in half inch increments. Quarter round arch tops are also available. ProSeries are backed by a 3 year structural warranty.

Rogue Valley New MDF Doors

Sustainable Designed Fiberboard (SDF)

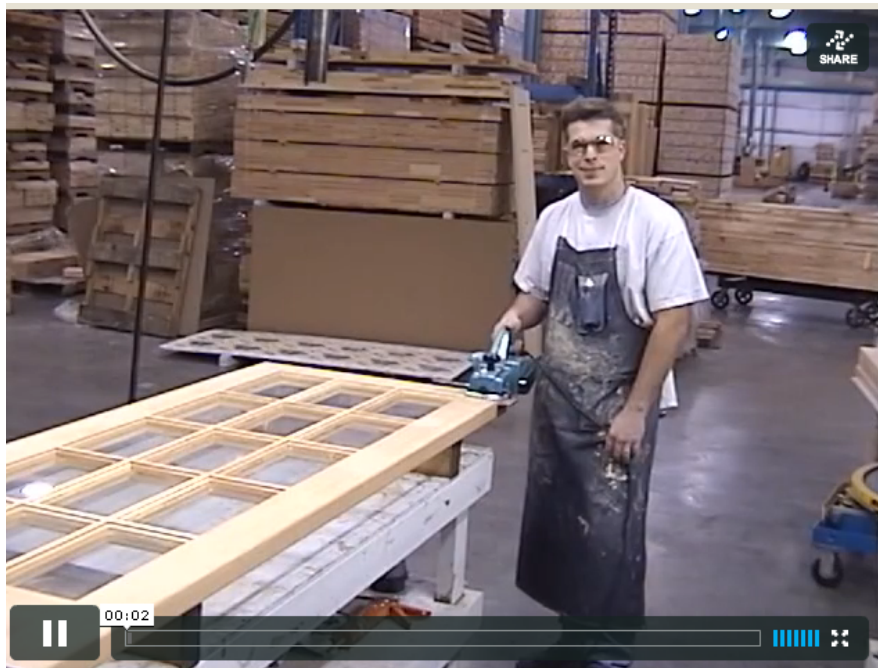

Rogue Valley Door is proud to introduce a new line of beautiful, highly functional, highly efficient and affordable doors made of Sustainable Designed Fiberboard (SDF). The line features the newest medium density fiberboard (MDF) offering manufacturers, designers, specifiers and home owners aesthetically pleasing, well designed, efficient and affordable doors engineered for the planet. The SDF line features time-tested stile and rail construction and are available in a variety of sticking patterns and panel raises. The panels are solid MDF and the stiles and rails are a composite of MDF and wood cores. Rogue Valley Door offers the finest handcrafted Custom Doors, Door Designs, SDF Doors and Millwork using a variety of softwoods and hard-woods in both traditional and contemporary styles. Since 1985, Rogue Valley Door is known for giving customers the ability to create virtually any Custom Door design imaginable to include Textured Glass Doors, Multiple Species Doors, Glass Panel Doors, Carved Doors, Etched Glass Doors and Shaped Doors. Rogue Valley Door is Forest Stewardship Council (FSC) certified, ensuring all wood doors were made using only legally harvested wood from sustainable forests
