Two fasteners are shipped with each post.

Brackets and Spandrel - See page 36-38

B&B Wood Products inc.

Fypon polymer/steel Lamp and Porch Posts encase a galvanized steel pipe in an architectural shape of high-density polymer. This process ensures sharp edges, straight lines and an extremely hard surface. Maintenance is minimal. Because of its unique polymer/steel construction, the Fypon Posts are rot, warp, and crack resistant. The steel pipe is galvanized and will not corrode. The post is insect resistant and will not be affected by ground water.

Lamp Posts are designed to be buried two feet in the ground. Electrical wiring will run up the center of the pipe in the post to connect to the light.

The metal pipe (O.D. 2 7/8") extends 1 3/4" from the top of the post to fit all standard lamps.
